Sumant Jatti

Address: Bagalkot, Karnataka - 587311

Email: sumantjatti97@gmail.com

Mobile: +91 7795527688

Summary

Experienced QA Engineer with a strong background in manual and automated testing. Proficient in creating test plans, executing test cases, and identifying software defects. Skilled in utilizing testing tools and frameworks to ensure the delivery of high-quality software solutions. Collaborative team player with excellent communication and problem-solving abilities.

Skills

- Test planning, test case development, and execution.

- Proficient in SDLC and STLC Methodologies

- Defect tracking and management.

- Test documentation and reporting.

- Testing methodologies: Sanity, Functional, Regression, REST API testing

- Test managements Tools: JIRA, OCTANE

- Automation frameworks: Selenium tool, Python scripting (Robot Framework), and Cucumber (BDD Framework).

- API Testing tools: Postman, SoapUI

- Programming languages: Java, python

- Databases: SQL, Oracle, PostgreSQL, DB2

- Web technologies: HTML, CSS Selector, XPath

- Collaboration Tools: Confluence

- CI/CD Tools: Jenkins, GitHub, BitBucket

- Agile development methodologies: Scrum

- Soft Skills: Analytical Thinking, Attention to Detail, Communication, Teamwork, Collaboration, Documentation, Adaptability, and Time Management

Experience

Associate QA Engineer | Finastra Software Solutions, Bengaluru | June 2022 - Present

- **Enhanced Software Quality:** Led comprehensive testing strategies using automation and manual checks, significantly improving software reliability.

- **Thorough Testing and Regression:** Conducted in-depth manual testing in QA and client environments, ensuring regression test case coverage through re-execution.
- **Data Integrity Champion:** Utilized SQL queries to verify data integrity within databases.
- **Agile Environment Management:** Configured environments for QA activities adhering to established guidelines.
- **Proactive Communication:** Participated in Agile Scrum meetings, providing progress updates and discussing testing challenges.
- **Test Status Management:** Maintained status updates on manual testing, automation in OCTANE, and user story progress in JIRA.
- **Automated Test Scripting:** Created and documented automated test cases, optimized existing test suites, and employed version control for the test script repository.
- **Diverse Environment Expertise:** Maintained various environments, including cloud platforms (Azure), Linux, AIX, Windows, single-entity, and multi-entity deployments.
- **Software Stability Assurance:** Ensured software stability by retesting resolved bugs and customer defects in each release.
- **Automated Test Development:** Produced test scripts for new automated testing rounds.
- **Defect Management:** Created and maintained databases like PostgreSQL, db2, oracle.

Awards and Recognition

- **Customer Focus Award - Teller and Party Project Delivery**

  Recognized for contributions to customer, partner, developer, and employee success during the Teller and Party Project delivery.
- **BBL IDT Validation Activities On-Time Completion Award**
  Awarded for successfully completing BBL IDT validation activities on time, while managing multiple parallel releases.

Education

- Bachelor's degree in electrical and electronics engineering | Hirasugar Institute of Technology | 2021
- Diploma in electrical and electronics engineering) | JVM Polytechnic College | 2018
- SSLC | Poorna Prajnya English Medium School | 2015

Certifications

- Completed courses in SQL, manual testing, automation testing (Selenium), and Java at Q-Spiders, 2022.
